# FORCED ENTRY TACTICAL TRAINING

DEDICATED TO YOUR TRAINING & EQUIPMENT NEEDS

*Gavin Vesp - Founder /  
Director Of Training*

*Brad Voyles  
Chief Instructor*

Explosive Entry continues to gain acceptance among main stream law enforcement, as a viable tactic for Special Operations Teams. Though acceptance has come slowly, the number of operators and administrators who are becoming familiar with the capabilities and advantages of using Explosive Entry tactics in real world situations continues to increase. The realization that Explosive Entry is a life saving tactic is becoming increasingly more apparent.

Forced Entry Tactical Training, is committed to providing the most comprehensive Explosive Entry Training to the law enforcement tactical community. We understand that Explosive Entry, like all aspects of SWAT related work and tactics, is most effective when used with the highest level of responsibility. This is how we train, this is what we teach.

The Forced Entry Equipment Shop, was designed to support the Law Enforcement, Military and Government communities with all their Explosive Breaching needs. Our product list is continually expanding to provide agencies with both training and operational essential equipment at a price which is affordable.

At Forced Entry Tactical Training, we are fully dedicated to providing you with the highest quality of training and equipment support possible. We respectfully ask that you consider us for all your breaching needs.

Sincerely,  
Gavin Vesp - Founder / Director of Training  
Forced Entry Tactical Training

## \*CENTER PUNCH SHOCK-TUBE INITIATOR KIT

Official Letterhead required with purchase form.

The "Center Punch Initiator", embraces the concept of "Keep It Simple". It has no mechanical safeties or exposed triggers. It fires with the use of a standard spring loaded center punch.

Forced Entry Tactical Training has developed a Dual Head Adaptor, which will now allow you to fire dual shock tube leads from this simple and safe initiator.

We have redesigned the Initiator handle to accept a MK-24 (STI), which will allow this system to be more adaptable for military operations. We have also designed an after market "End Cap", which

comes standard with all our Center Punches and allows for easy attachment to the 5/50 Cord Lanyard.

The ability to keep the firing pin separate from the initiator until the appropriate time, makes this system extremely tactically friendly in dynamic training and operational situations.

### Includes:

- 1-Black Anodized Handle / Re-Designed To Accept a MK-24 (STI)
- 1-Dual Head Adaptor (Utilizes #209 Shotgun Primer)
- 1-Single Head Adaptor (Utilizes #209 Shotgun Primer)
- 1-Spring Loaded Center Punch w/ Lanyard End Cap Attachment.
- 1-Black Cord / 550 / 4 ft. in Length (Used For Lanyard)

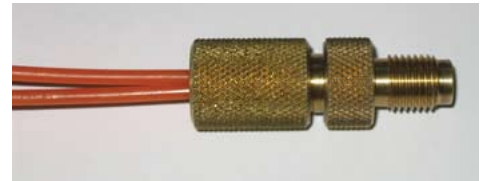

Fires Dual or Single Shock-Tube (NONEL)

**Price: \$168.00**

**Center Punch Initiator - Single Head Adaptor**

**Price - \$35.00**

**Center Punch Initiator - Dual Head Adaptor**

**Price - \$59.00**

**Spring Loaded Center Punch w/ FETT Lanyard Attachment**

**Price - \$35.00**

## \* DUAL CENTER PUNCH INITIATOR KIT

Official Letterhead required with purchase form.

Includes:

- 1- Black Anodized Dual Handle.
- 1- Black Anodized Bridging Handle  
w/ Two Fixed Spring Loaded Center Punches.
- 2- Single Head Adaptors (Utilizes #209 Shotgun Primers)
- 1- Black Cord / 550 / 4ft. in Length (Used For Lanyard)

**Price: \$268.00**

Forced Entry Tactical Training is proud to release our newest design in the Center Punch Initiator family. With this new design, operators can maintain the simplicity and safety enjoyed with the original "Center Punch Initiator", but now have a truly redundant system.

This Initiators cylindrical shape, measures 1-1/2 inches in diameter and 3-7/8 inches in length. The Center Punch Bridging Handle, firmly secures two independent Center Punches with a system of press fitting and bolting to ensure precise and long lasting alignment. The Bridging Handle has a center routed groove which allows the 550 Cord lanyard to be fixed in place.

If you like the simplicity and safety of the original Center Punch Initiator, but are looking for a true Dual Initiator, the new Dual Center Punch Initiator Kit, designed, manufactured and sold exclusively by Forced Entry Tactical Training is the Initiator you are looking for.

## FETT BREACHING DOOR FRAME

**Price: \$1200.00**

\* Special Shipping Rates Will Apply.  
Contact FETT For More Information.

Forced Entry Tactical Training has recently designed a self standing, portable door frame. This frame was designed specifically for Explosive Breach training, but can also be used for Manual, Mechanical or Ballistic Breaching. It is constructed with 5/16" channel iron and was designed to allow standard 3-0 (36" wide) doors to be hung as they are found on residential and commercial structures.

These frames are perfect for agencies looking for a Range Training capability, but do not have the space to construct a permanent facility. Use these frames individually, or connect multiple frames with ply-wood to construct a true breaching facade.

Forced Entry is still evolving this Door Frame and will be offering additional options and configurations in the near future.

### *FETT Door Frame Adapted For Ballistic Breach Training On Rebar*

# ENTRY FRAMES

## Entry Frame

Ideal for heavy "through wall" applications. Designed with a "V" shaped loading groove and a prop-stick holder which swivels to allow flexibility with placements.

**Price: \$195.00**

## Commercial Folding Entry Frame

This Commercial folding frame is the latest design from Gryphon Engineering. The Oval shape and the folding capability of this frame, makes it extremely more man portable. Still utilizes the "V" shaped loading channel.

**Price: \$245.00**

## Gunport Frame

Ideal for heavy "through wall" applications. Designed with a "V" shaped loading groove and a prop-stick holder which swivels to allow flexibility with placements.

**Price: \$165.00**

# BROCO TORCHES AND ACCESSORIES

## ULTRATHERMIC CUTTING SYSTEMS TACTICAL TORCH KITS & CONSUMABLES

### Tactical Cutting Torch Kit

Lightweight Breaching/Entry torch kit contains backpack, aluminum oxygen cylinder, regulator, torch, hoses with quick-connects, battery ignition accessories, rod extender, gloves, safety glasses, accessories, Pelican case.

**PC/TACMOD1**

**Retail \$2,650.00**

**Forced Entry Price**  
**\$2385.00**

### Rapid Fire Cutting Rod Ignition Cartridges

Near instantaneous, non-electric lighting of Ultrathermic cutting rods. Can be used underwater. Box Contains 10 Units.

**PC/RFC-10**

**Retail \$135.00**

**Forced Entry Price**  
**\$121.50**

### Handheld Tactical Cutting Torch Kit

Two composite oxygen cylinders, regulator, torch, hose with quick-connects, lightweight battery system, dual pole striker plate assembly, fanny-pack, cutting rods, safety accessories, Pelican case.

**PC/MTMOD1**

**Retail \$2,300.00**

**Forced Entry Price**  
**\$2070.00**

### Tactical Cutting Torch Kit (Submersible)

Lightweight Breaching/Entry torch kit contains backpack, aluminum oxygen cylinder, submersible regulator, torch, hoses with quick-connects, battery ignition accessories, rod extender, gloves, safety glasses, accessories, Pelican case.

**PC/TAC-A**

**Retail \$2,925.00**

**Forced Entry Price**  
**\$2632.00**

# EXPLOSIVE BREACHING KITS

## Priming Pack (Complete Kit)

This Priming Pack comes to you ready to train. These Packs are the exact same kits that are utilized by Forced Entry students when attending our Explosive Breaching Courses. By buying these Packs as a complete kit, you are immediately ready for both training and operational missions. We have put these complete kits together for your convenience and to speed up your agencies program development.

**Price: \$450.00**

Kit Includes:

- 1 BlackHawk LRRP Pack (Blk, OD, Tan, ARPAT/ add \$15)
- 1 BlackHawk 2" Shoulder Strap Sling (Black Only)
- 2 Center Punch Initiator Handles
- 2 Dual Head Shock-Tube Adaptors
- 2 Single Head Shock-Tube Adaptors
- 2 General Tools #79 Center Punches w/ FETT Lanyard Cap Attachment
- 1 FETT Shock-Tube Coiling Block
- 1 Razor Cutter
- 1 Box #209 Shotgun Primers (100 Quantity)
- 1 Bag Rubber Bands
- 3 Rolls Electrical Tape
- 4 Blasting Cap Crush Protectors

## Charge Pack (Complete Kit)

This Charge Pack comes to you ready to train. These Packs are the exact same kits that are utilized by Forced Entry students when attending our Explosive Breaching Courses. Add explosives and you are ready to build charges for both training and operational missions. We have put these complete kits together for your convenience and to speed up your agencies program development.

**Price: \$420.00**

Kit Includes:

- 1 BlackHawk Special Operations Medic Pack (Blk, OD, Tan, ARPAT/ add \$30)
- 1 Laminated Pack Equipment List
- 30 Forced Entry Breacher Reports
- 30 Forced Entry Shot Sheets
- 2 Omni Breach Bottles
- 1 Roll "Stick-On" Breachers Tape (30 mil)
- 1 Roll Double Sided Duct Tape
- 2 Rolls Black Duct Tape
- 1 Roll Colored Duct Tape
- 1 Roll Teflon Tape
- 5 Polyethylene Strips 12"
- 5 Rubber Strips 12"
- 5 Rubber Strips 8"
- 5 Foam Strips 8"
- 10 Mini Flex-Cuffs

- 3 Bottles Breachers Paste
- 1 Folding Pruning Saw
- 3 Razor Knives
- 2 Tape Measures
- 1 Electronic Stud Finder
- 1 Set Bathroom Hooks
- 1 Box of "Ooks" Hangers
- 10 Popsicle Sticks
- 10 Straws
- 1 Phillips Head Screw Driver
- 10 Wood Screws 3"
- 2 Black "Sharpie" Markers
- 1 Can Spray Adhesion
- 1 Box Thumb Tacks
- 1 Crescent Wrench

## Priming Pack / Charge Pack Combination Kit

This combination gives you the opportunity to save money by buying both Packs as a complete kit. Add explosives and you are ready to head to the range the day your packs arrive.

**Price: \$850.00**

# EXPLOSIVE BREACHING KIT ACCESSORIES

Tactical Gear Packs

## LRRP Buttpack

Long Range Recon Patrol Pack is used in all Forced Entry Training Courses to store Priming Systems and associated support tools. It is also utilized as a Rapid Deployment Charge(RDC)carrier. This pack works great for both applications.

Save 20% off your purchase price when you buy through Forced Entry.

\*\* Comes in different 4 different colors - Black, Olive Drab, Woodland Camo, and Coyote Tan.

**Forced Entry Price \$84.95**

## Special Operations Medical Back Pack

Special Operations Medical Back Pack is used in all Forced Entry training courses to store all charge construction tools and non-explosive support materials. This pack is also utilized by many of the instructors with their Units operationally, to carry pre-built charges and operationally essential support equipment.

Buy through Forced Entry and save over \$30.00 on your purchase price.

\*\* Comes in different 4 different colors - Black, Olive Drab, Woodland Camo, and Coyote Tan.

**Forced Entry Price \$187.95**

## #209 Shotgun Primers

These #209 Shotgun Primers are the standard to be used with the Center Punch Initiator Kit. A single box comes with 100 primers.

**Price: \$10.00 (per box)**

## BlackHawk 2" Sling Shoulder Strap

This 2" wide shoulder sling is used by Forced Entry Tactical Training in conjunction with the LRRP Butt Pack which is utilized in all our courses as a Priming System Satchel. This 2" Sling is fully adjustable and uses heavy duty black metal snap-hooks.

**Price: \$9.95**

## Shock-Tube Coiling Block

These wooden coiling blocks are produced by Forced Entry and are used by students during the Tactical Explosive Breacher Course, as a method to simply and cleanly coil their shock-tube priming systems.

The block allows you to coil the shock-tube in a stacked figure eight configuration.

The wooden dowels are long enough to accommodate the coiling of shock-tube up to 60 ft. in length.

This allows the shock-tube priming system to be stored in a compact package and promotes consistent tangle free deployment during training and operational use.

**Price \$35.00**

# EXPLOSIVE BREACHING KIT ACCESSORIES

## OMNI Breach Bottles

These water bottles are produced by Omni Explosives and are a great alternative to 1000 ml IV bags for some applications. These bottles allow you to maximize the concepts of "Push" and "Tamp". They are designed to be versatile while selecting the appropriate gain weight and ultimately are easy to work with and make super clean charges. We at Forced Entry Tactical Training, use these water bottles for a wide range of charges.

**Price: \$175.00** (per case / 32 bottles per case)

## Rubber Strips

These Rubber Strips are made from Goodyear 330B Conveyor belt rubber. The strips have been cut to convenient and frequently used sizes.

Strip Size – 78" x 1/2" x 2"

**Price: \$9.50 Each**

Strip Size – 12" x 1/2" x 3/4" ( 10 Per Bundle)

**Price: \$20.00** (Per Bundle)

## Polyethylene Strips

These strips are made from high-density polyethylene and measure 12" x 1/2" x 3/4".

They are sold in bundles of 10.

**Price: \$25.00** (Per Bundle)

# ADHESION

5 - 10cs \$51.50/rl

## Double Sided Duct Tape

We have found this tape to be an excellent option for tactical breaching applications. Not only does the tape have great adhesive strength, it is also very affordable. Works well for direct charge to target adhesion in dry, warm environments. We also use it extensively to hold multiple strands of Detonating Cord in place during the charge construction process. This tape has a thin plastic backing that prevents tearing upon removal. An affordable tape which has multiple applications.

Price: \$11.95 (per roll)  
\$10.95 (24 rolls or more)

## \*Breachers Paste™

Breachers Paste - Designed for charge to target adhesion in a wide range of environments. Comes packaged in soft sided plastic bottles (5.25 oz.).

Price: \$10.00 per bottle  
(10 Bottle Minimum Order)

Our 8 lb. Forged head sledgehammer carries easily at only 19". Simply pull on the knob at the end of its handle and this power striker extends to a full 30". Nothing gets in the way.

**Forced Entry Price**  
**\$191.25**

# TACTICAL EXPLOSIVE BREACHER COURSE (5 DAYS)

**Tuition - \$1000.00 per officer**

This Explosive Breaching Course is designed for the SWAT or EOD Officer wishing to gain the knowledge and expertise which will enable them to design an Explosive Breaching Program for their agency, or expand on an existing Explosive Breaching Program already in place. Before attending this course, students must show proof of prior explosive handling training. This could include: certification from a recognized Explosive Handler / Breaching course, or be a currently trained EOD Officer. All other students wishing to attend this course will be required to attend the one day Explosive Familiarization Course, prior to attending the five day Tactical Explosive Breacher Course.

Topics to be covered:

- \* Evolution of Explosive Breaching
- \* Understanding Alternate Methods of Breaching.
- \* Breaching Explosives
- \* Shock Tube Priming Systems
- \* Safe Storage and Handling
- \* Principles of Cut, Push and Blast
- \* Charge Construction and Charge Selection
- \* Breaching Hazards
- \* Documentation / Liability
- \* Charge Calculations
- \* Target Analysis
- \* Tactical Consideration and Intelligence
- \* Breacher Responsibilities
- \* Tactical Concepts and Contingencies

This course is designed to be hands on.

Although some classroom time will be necessary, our emphasis will be on maximizing range time.

The pace of the course will quicken as students gain confidence with Charge construction and overall tactical concepts.

## EXPLOSIVE FAMILIARIZATION COURSE (1 DAY)

**Tuition - \$200.00 per officer**

This course is designed for the SWAT Officer wanting to attend the five day Tactical Explosive Breacher Course, but has no or limited knowledge of explosives. Understand that this course is not designed to be a comprehensive class in all facets of explosive handling. It is designed to give an officer the basic knowledge to comfortably and competently attend the five day Tactical Explosive Breacher Course.

Topics to be covered:

- \* Types of explosives used for Breaching
- \* Difference between High and Low Explosives
- \* Understanding the principles and effects of Detonations.
- \* Difference between Primary and Secondary High Explosives
- \* Concept of an Explosive Train
- \* Types of Priming Systems
- \* Familiarization of Shock Tube Priming Systems
- \* Familiarization of Shock Tube Initiators
- \* Types of Priming Methods
- \* Concept of Relative Effectiveness (RE) Factors
- \* How explosives are measured
- \* Basic charge calculations
- \* Safety and handling

Ultimately our goal in this one day of instruction is to insure that each student is prepared to comfortably work with explosives at a level that allows them to safely participate in the five day Tactical Explosive Breacher Course.
